

The screenshot shows an IDE environment with a project named 'ToDoList'. The project structure includes a 'src' directory with a 'main' package containing 'org.example', which has a 'ListaTarefas' class and an 'InterfaceListaTarefas' interface. The 'run' button is highlighted, and the output console shows the command to run the application. A window titled 'Aplicativo de Lista de Tarefas' is open, displaying a list of tasks: 'Aula do Aramuni terça às 19:00', 'Trabalho Final de LP para dia 23/11', and 'Tomar 5L de água'. The 'Tomar 5L de água' task is selected, and a 'Remover tarefa' button is visible at the bottom of the window.
